

The Brightest Choice of Networking & Communication

## BPR30016UP

### BayLan 1Parallel Port 10/100Mbps Print Server

#### FEATURES:

**BayLan Print Server USB** 1xUSB 1.1-compliant port, supporting 1.5Mbps (low speed) and 12Mbps (full speed) data transmission rate. This port automatically detects the make and model of the USB printer.

**LAN** Compliant with IEEE 802.3/803.2u standard, 10/100Mbps auto-sensing, RJ-45 (UTP) connector

#### SPECIFICATIONS:

Applicable Stranded	Network Operating System Support Windows 95/98/98SE/Me, Windows NT 4.0/2000/XP, Mac OS 8.1 or higher UNIX/Linux, NetWare (Bindery/NDS)
Network Protocol Support	TCP/IP, IPX, NetBEUI, AppleTalk, LPR
Internet Printing Protocol (IPP) Support	Yes
Windows Print Monitor Technology	Yes
DHCP (client) Support	Yes
Management	Web Interface, Windows-based Setup Program, Telnet
Software Upgradeable	Yes (via TFTP or Windows-based Setup Program)
SNMP & HP Web Jet Admin Support	Yes
As of the release of this specification	

#### HARDWARE SPECIFICATION

CPU	Embedded high-performance microprocessor
Flash	512Kbytes
System Memory	1Mbytes SDRAM
USB Port	USB 1.1 standard compliant host controller
LAN Port	10/100Mbps, auto-sensing

#### OTHERS

ID SIZE	53 X 64 MM (TOLERANCE: 1 MM)
Power Supply	5V, 2A (mini-sized power adapter*)
EMI Certifications	CE / FCC Class A
Temperature	Operating : 0 ~ 50°C; Storage : -5 ~ 65 °C
Humidity	Operating : 0 ~ 70%; Storage : 0 ~ 80%

Specifications are subject to change without prior notice with advancement in technology.
