

The Brightest Choice of Networking & Communication

25/50 Ports Cat-3 High Density ISDN Voice Panel

The BayLan's High Density ISDN voice 25 / 50-port patch panel is designed to provide a cost effective and simple way to feed PBX or other simple voice circuits into a structured cabling system.

The High Density ISDN Voice Patch Panel Provides 25/50 voice ports in a compact 1U height format. Each port is clearly identified front and rear and is capable of carrying up to two voice pairs. Functional earth facilities where required (e.g. Earth Loop Recall) can be simply catered to by communing any single pair across the panel. Each panel is supplied with a fixing and earthing kit.
