

BHR30238UA4 **BayLan 4Port USB HUB Over IP**

Features and Benefits

- Extend USB cabling distance beyond 5 meters
- USB ports appear to be locally attached and provide same Plug-and-Play user experience as on board USB ports.
- Access and monitor devices over a TCP/IP connection
- Compatible with USB 2.0 and supports HID devices, printers, storages, and isochronous transmission such as USB audio.

SPECIFICATIONS

USB Version	V1.0
Interface	Input 10/100 base Ethernet Output USB A type * 4
Speed	Ethernet up to 100Mbps USB 2.0 up to 480Mbps
OS Support	Windows XP / Server 2003 (32 bit & 64 bit) and Vista (32 bit and 64 bit) or latest
Standard	IEEE 802.3 compliant 10/100 Mbps Ethernet MAC USB 1.1 and USB 2.0 compatible
Supporting	Supports Multi-function printer(scanner, fax, print) while print server provides print feature only Support printer Auto Connect feature
Power Supply	Input: DC5V/2A,100-240VAC Output: Per port 5V/500mA,Total output can provide 8.7W only
Provides LED indication for device access	USB LED / Power LED / System LED
Physical dimensions	117.84(W) x 179.68(D) x 31.27(H)mm
Regulatory approval(s)	FCC Class B (DOC) & CE
	Support reset button for configuration to default
	Plug-and-Play
	ROHS Complaint
