

BCC6314SDP Rack Chassis 19" for Media Converter 10/100 & 1000Mbps Multimode & Singlemode 2u

BayLan Media Converter Chassis is designed with flexibility in mind. With 14 independent, hot swappable slots, this Media Converter Chassis offers much in expandability and adaptability. Because each module operates independently, new modules can be added on demand. This flexibility allows the unit to grow along with the ever increasing network demands. Installation is extremely easy: Simply slide the module into the chassis and you are up and running. Fitting cleanly into almost any network environment, it will become the perfect solution for connecting today's evolving networks.
