

## Electric mortise lock instruxtions

### Main characteristics:

Working voltage: 12VDC

Red-Power supply(+)

Black-Power ground(-)

Working current: Start state 450mA

Persistent state 450mA

Coil type: Continuous working

Security type: Electric power lock, unlock

Lock core: The diameter of 15MM stainless steel core, extending the length of 15MM

Locking mode: Magnetic induction

### The original list

|                           |                |
|---------------------------|----------------|
| Electric mortise lock     | (A handful of) |
| Panel cover               | (A block)      |
| Induction lock            | (A block)      |
| Screw                     | (A packet of)  |
| Manual                    | (A piece of)   |
| Certificate of conformity | (A piece of)   |
