

Preface

Honorable customers,

Thanks for choosing products of our company. The product with world cutting edge technologies—fingerprint recognition, computer communication, as well as microelectronics, is considered to be combination of three technologies: electronics, optics and computer communication. It is no doubt that it has become the first choice of standalone time & attendance for enterprises with its strong function and veracity.

New generation BioNano fingerprint identification algorithm, which undergoes researching for 10 years, with TI 300MHz high speed processor, all self-owned intellectual property rights, unique function of healing the broken fingerprint lines and intelligent fingerprint template update, is one of the most efficient and stable fingerprint algorithm in the world.

Bio-office is a sub brand of Anviz USA. Bio-office series fingerprint products combine fingerprint and traditional RFID technology. All models come with powerful background time attendance management software which can support all kinds of complicated shift and generate various reports. It is versatile, convenient and multi-functional.

Please read this user manual carefully to have an initial understanding of functions and basic knowledge of installation, debugging, maintenance, application and management to better use this product.

Advantage of Fingerprint Time Attendance

- Three level-up
 1. Management level-up
 2. Profit level-up
 3. Enterprise image level-up
- Three reductions
 1. Employee dispute reduction
 2. Work redundancy reduction
 3. Environmental pollution reduction
- Three eliminations
 1. Buddy punching elimination
 2. Loss and damage elimination
 3. Circular cost elimination

- **Full function**

The system can realize different functions such as attendance remark, calculation and report printing. The remark can be made for reasons such as business leave, absence, marriage holiday and etc.; the checking and calculation can be made in accordance with different time periods, departments, individual or combination due to various reasons for absence; the report generation and printing function can be realized perfectly.

- **Flexible Shift Maintenance**

The software supports shift on week basis, rotation shifts etc. Various shifts, public holidays, individual leave and overtime are available to meet the complicated needs of every enterprise.

- **Standalone**

The machine can work without connecting to PC, convenient in operation and no need to occupy any extra resource.

- **Multi-communication in network**

For large enterprise, multiple devices can be applied to do attendance synchronously, which will convenient for large quantity of users and save time.

Chapter 1

Introduction

The main theme of this chapter is the feature of this T&A, as well as function introduction.

1 Product Introduction

1.1 Product introduction

EP series is our new generation wall mounted fingerprint time attendance machine which is released in 2010. It uses the USA TI 300MHz military high speed CPU and USA BioNano V10.0 core fingerprint algorithm which is 30% higher in the identification speed compared with the last version algorithm. And the unique fingerprint positioning design is used in the EP series.

EP series machine supports the plug&play USB communication. And the standard USB power can be used as power input.

1.1.1 Product Features

- USA TI 300MHz high speed CPU;
- USA BioNano core fingerprint algorithm of high speed and stability;
- New generation fully sealed, waterproof and dustproof fingerprint sensor;
- User name display and human voice prompt;
- Realtime data transfer and WEB online tracking;
- Identification method: FP, ID+FP, ID+PW;
- EP10: Standard (USB communication);
EP20: Portable (USB communication + high capacity Lithium battery);
EP30: TCP/IP (USB communication +TCP/IP);
EP300: Advanced (TCP/IP + high capacity Lithium battery);
- Fingerprint capacity: 2000; Record capacity: 50000;
- Identification speed: <0.5 second;

- Size: 185(w)*130(h)*35(d)mm;

1.1.2 Parameter

Item	Description
Register Mode	Fingerprint, Password
Identification Time	< 0.5s
FRR	0.001%
FAR	0.00001%
Working Current	0.2-0.5A
Sleeping Current	0.2A
Temperature	-10℃-60℃
Humidity	20%-80%
Casing Material	ABS Plastic
Scan Area	22mm*18mm
Color	Black
Image Resolution	500DPI

Chapter 2

Operation Guide

This chapter is mainly about appearance illustration and relevant system settings such as how to add and delete users etc.

2 Operation Guide

2.1 Keypad Introduction

Keypad introduction:

- | | |
|--|--|
| 1. [M]: Menu key; | 2. [C]: Cancel key; |
| 3. [OK]: OK/Power key; | 4. [→]: Direction(Down)/select key; |
| 5. [←]: Direction(Up)/select key; | 6. [0-9]: Number key; |

2.2 Time attendance status

Connect the machine to the power adapter via the USB cable. The machine starts automatically.

In this status, we can start user T&A, status setting, entering management mode and power off operation.

2.3 User

User info management includes user registration, user deletion, groups' setting and manager setup and deletion.

Press [**M**] key to enter system management mode. Shift the options by [**←**] or [**→**] key.

Menu

▶ User

Setup

System info

Press [OK] key to enter the sub-menu,

User ▼

▶ Enroll

Delete

Manager setup

2.3.1 User enroll

One user can register 2 fingerprints and 1 password.

Enter fingerprint:

Enter [User] menu - [Enroll] option, press [OK] key to enter user registration interface. Input user ID, i.e. 8101,

Enroll

ID 008101

Esc-ESC Set-OK

Press [OK] key to continue,

Enroll

FP 1/2

Password

Esc-ESC Set-OK

1 means enroll the 1st FP
2 means enroll the 2nd FP

Press [←] or [→] key to select 1 or 2, 1 is to register the 1st FP, 2 is to register the 2nd FP. Press [OK] key to continue,

FP Enroll

Press Finger #1

Place finger on the scanner window. If scanning finger scanning successful, the system will prompt as following,

FP Enroll

Take off!

Remove finger, the system will prompt,

FP Enroll

Press Finger #2

Place the same finger on sensor scanner. If enroll successful, it prompts as following,

FP Enroll

008101-1

Ign-ESC Sav-OK

Press [OK] key to save fingerprint; Press [C] key to user registration interface.

The 2nd finger registration steps are as same as the 1st finger registration steps.

Password registration:

Enter [User] menu - [Enroll] option, Press [OK] key to enter user registration interface. Input user ID, i.e. 8101,

Enroll

ID 008101

Esc-ESC Set-OK

Press [OK] key to continue,

Enroll

FP 1/2

Password

Esc-ESC Set-OK

Press [←] or [→] key to select [Password] option. Press [OK] key to continue, Input password with 1-4 digits,

Pass Enroll

PWDID ****

Esc-ESC Set-OK

Press [OK] key to confirm. And input password again,

Pass Enroll

PWDID ****

Confm ****

Press [OK] key to confirm again. The system will prompt as following,

Pass Enroll

008101-P

Ign-ESC Sav-OK

Press [OK] key to save password. Press [C] key and exit to user registration interface.

2.3.2 User Deletion

When there are staff leaving or staff info changing, we need to delete these staff to free more memory space.

Enter the [User] menu, press [←] or [→] key to select the [Delete] option,

A rectangular screen with a black border. It contains the text "User" at the top left, "Enroll" below it, "▶Delete" below that, and "Manager Setup" at the bottom. A small black downward-pointing triangle is located at the top right.

User ▼
Enroll
▶Delete
Manager Setup

Press [OK] key to enter the [User Deletion] interface,

A rectangular screen with a black border. It contains the text "User Delete" at the top. Below it, the text "ID" is followed by a grey rectangular input field containing the text "000000".

User Delete

ID 000000

Input staff ID to be deleted. Press [OK] and enter delete confirm interface,

A rectangular screen with a black border. It contains the text "User Delete" at the top. Below it, a grey rectangular input field contains the text "008101". At the bottom, the text "No-ESC" is on the left and "Yes-OK" is on the right.

User Delete

008101
No-ESC Yes-OK

Press [OK] key to confirm with voice prompts: “Deletion successfully”.

Press [C] to cancel.

Notice: staff deletion will delete all info of the staff and can't resume. Please take caution!

If the machine doesn't have such a staff ID, the system will prompt,,

A rectangular screen with a black border. It contains the text "User Delete" at the top. Below it, the text "No Enroll!" is centered.

User Delete

No Enroll!

2.3.3 Manager Setup

We should set a manager for the machine in order to prevent the illegal operations. The system will verify the manger's fingerprints or password when anyone tries to enter the machine's menu.

Enter the [User] menu, press [←] or [→] key to select [Manager Setup] option,

User ▼

Enroll
Delete
▶ Manager Setup

Press [OK] key to enter the [Manager Setup] interface,

Manager Setup

Esc-ESC
Add-OK

Press [OK] to start adding manager,

Manager Setup

ID 000000

Input the user ID i.e. 8101. Press [OK] key to enter manager setup save interface,

Manager Setup

008101
No-ESC
Yes-OK

Press [OK] key again to confirm saving. After adding completed, exit to manager setup interface.

Manager Setup

▶ ID 008101
Esc-ESC
Add-OK

You can press [OK] key to continuously add other managers, and press [C] to exit as well.

If you press the key **【M】** to enter the machine's menu and you have set one manager in the machine.It will prompt as following,

Manager?

09 : 00 26
02-16-09 MON

You have to verify the manager's fingerprint or password before entering the machine's menu.

2.3.4 Manager Clear

Enter the [Manager Clear] menu. Press [←] or [→] key to select [Manager Clear] option.

User ▼

▶ Manager Clear

Press [OK] to enter the [Manager Clear] interface,

Manager Clear

▶ ID 008101
ID 008102
Esc-ESC Clr-OK

Press [←] or [→] key to choose the manager ID to be deleted, i.e. 8102.

Manager Clear

ID 008101
▶ ID 008102
Esc-ESC Clr-OK

Press [OK] key to confirm the manager ID.

Manager Clear

ID 008102

Note: In the [Manager Clear] interface, you can press [OK] key to input and delete

the manager ID manually.

Press [OK] key to confirm the manager ID to be deleted, and enter manager clear interface,

Manager Clear

008102

No-ESCYes-OK

Press [OK] key again and confirm to delete manager 8102. Then exit to manager clear interface.

Manager Clear

► ID008101

No-ESCYes-OK

Press [OK] key to delete manager continuously. Press [C] key to exit manager clear interface as well.

2.4 Setup

The [Setup] menu includes [System Setup] and [Log Setup].

Enter management menu, press [←] or [→] key and shift to [Setup] option.

Menu

User

► Setup

System Info

Press [OK] key to enter [Setup] sub-menu. Press [←] or [→] key to shift menu.

2.4.1 Device ID

In [Setup] menu, press [←] or [→] key to enter [System] setup option,

Setup

► System

Log Setup

Hardware Test

Press [OK] key to enter system setting sub-menu,

System	▼
► Dev ID	1000
Time	
Language	ENG

Prompt: This option can only be checked in device and not allowed to modify.

2.4.2 Time

Under [System] menu, press [←] or [→] key and shift to [Time] option.

System	▼
Dev ID	1000
► Time	
Language	ENG

Press [OK] key to enter time setting interface.

Time	MON
2009-02-16	14:58
↑	
Set-ESC	Next-OK

You can press the [OK] key to shift the year, month, day. And adjust the time. After setting completed, press [C] key and enter system time save interface,

Time	THU
2009-01-07	15:30
Save?	
No-ESC	Yes-OK

Press [OK] key to save system time. Press [C] key to cancel and exit to upper menu

2.4.3 Language

In [System] setup, press [←] or [→] key and shift to [Language] option,

System	▼
Dev ID	1000
Time	
► Language	ENG

Press [OK] key to enter language setting interface,

System	▼
Dev ID	1000
Time	
► Language	ENG

You can press [←] or [→] key to shift the language. (The system already has 8 languages: English, French, Spanish, Portuguese, Italian, Bulgarian, Slovak and Hungarian. And then press [OK] to confirm.

Then you can continue to do other function settings. And press [C] key to enter setting save interface.

Set
Save?
No-ESC Yes-OK

Press [OK] key to save system setting. Press [C] to cancel and exit to upper menu.

2.4.4 Network Setting

The [Network setting] main includes IP address, subnet-mask, MAC address, gateway, far-end IP, far-end limit settings.

In [System]setup, press [←] or [→] key and shift to [Net] option,

System	▲
► Net	
Precision	1
Volume	5

Press [OK] key to enter net parameter interface,

Net ▼

- IP Address
- Subnet Mask
- MAC Address

Press [←] or [→] key to do net parameter setting.

Set-ESC Next-OK

Press [←] or [→] key or number key to input MAC address. Press [OK] key to shift between the 6 segments. After setting completed, press [C] key to enter MAC address save interface.

MAC Address

051 . 247 . 188 . 066.

084 . 215 Save?

Set-ESC Next-OK

Press [OK] key to save the modification. Press [C] key to cancel.

[Gateway IP]: Press [←] or [→] key and shift to [Gateway IP] option.

Net	▼
► Gateway IP	
Far-end IP	
Far limit	No

Press [OK] key to enter the [Gateway IP] interface,

Gateway IP	
192 . 168 . 000 . 001	
Set-ESC	Next-OK

Press [←] or [→] key or number key to input gateway IP. Press [OK] key to shift between the 4 segments. After setting completed, press [C] key to enter gateway IP save interface.

Gateway IP	
192 . 168 . 000 . 219	
Save?	
No-ESC	Yes-OK

Press [OK] key to save the modification. Press [C] key to cancel.

2.4.5 Matching Precision

There are three fingerprints matching precision level (0, 1, 2). 0 is lower precision (basic); 1 is standard precision (good); 2 is high precision (excellent) as follows:

Press [←] or [→] key and shift to [Precision] option:

System	▼
Net	
► Precision	1
Volume	5

Press [OK] key to enter precision setting interface,

System	▼
Net	
► Precision	1
Volume	5

Press [←] or [→] key or number key to adjust the precision. Press [OK] key to confirm. Then press [C] to save the setting.

2.4.6 Volume

Volume 0 is mute, 1 is the min volume. Volume will be higher if the number increases.

Press [←] or [→] key and shift to [Volume] option,

System	▼
Net	
Precision	1
► Volume	5

Press [OK] key to enter volume setting interface,

System	▼
Net	
Precision	1
► Volume	5

Press [←] or [→] key to adjust volume. Press [OK] key to confirm setting, press [C] key to save the setting.

2.4.7 Auto Off

Auto off is the time period from the last operation timing on device to coming into dormancy status. Time range is 1-250 seconds. 'No' is no dormancy for ever.

Press [←] or [→] key and shift to [Auto off] option.

System	▼
► Auto off	10
Auto Update	NO

Press [OK] key to enter auto off setting interface,

System	▼
▶ Auto off	10
Auto Update	NO

Press [←] or [→] key or number key to input dormancy time. Press [OK] key to confirm. Then press [C] to save the setting.

2.4.8 Auto Update

Update the fingerprint template intelligently: During fingerprint sensor identification process, the sensor replaces the lowest-quality data with new, higher-quality data acquired in the matching process will replace the old, lowest-quality data. This enables the sensor to maintain high quality data at all times, saving time for users from repeated authentication attempts.

Press [←] or [→] key and shift to [Auto Update] option:

System	▼
Unlock	5
Auto off	10
▶ Auto Update	NO

Press [OK] key to enter auto off setting interface:

System	▼
Unlock	5
Auto off	10
▶ Auto Update	NO

Press [←] or [→] key to choose 'Yes' or 'No', and then press [OK] key to confirm. Then press [C] to save the setting.

2.4.9 Log setup

Log warning number has the highest limit of 5000. When the available records memory is less than the "Glog Wrn", system will prompt corresponding operation.

Press [←] or [→] key and shift to [Log Setup] option.

Setup
System
▶ Log Setup
Hardware Test

Press [OK] key to enter sub-menu,

Log Setup
▶ Glog Wrn 1000
Re-Verify NO

Press [←] or [→] key and shift to [Glog Wrn] option. Press [OK] key to enter log warning setting interface.

Log Setup
▶ Glog Wrn 300
Re-Verify NO

Press [←] or [→] key or number key to input log warning number. Press [OK] key to confirm. Then press [C] to save the setting.

2.4.10 Re-Verify time

The Re-verify time is the time interval in which you make continuous records with the same finger (1-250 minutes), and then the device will only save the first record. If the re-verify value is "NO", it means that your every record will be saved in the device.

In [Log Setup] menu, Press [←] or [→] key and shift to [Re-Verify] option.

Log Setup
Glog Wrn 3000
▶ Re-Verify NO

Press [OK] key to enter re-verify setting interface,

Log Setup	
Glog Wrn	3000
► Re-Verify	30

Press [←] or [→] key or number keypad to input time. Press [OK] key to confirm.
Then press [C] to save the setting.

Prompt: if the same finger is identified continuously in re-verify time period, only the first record will be saved in device memory.

2.4.11 Hardware Test

Test the functions of machine keys, LCD, voice, scanner and data area.

Select [Hardware test] option in [Setup] menu

Setup
System
Log Setup
► Hardware Test

Press [OK] to enter setting interface as following:

Hardware Test	▼
► Keypad	
LCD	
Voice	

Press [←] or [→] key to choose testing option and press [OK] key to start.

Keyboard: press [←] or [→] key to select [Keyboard] option, and press [OK] to enter keyboard testing interface. Then press any key to start keys testing (i.e. press key 3, if interface shows current key as 3, it indicates the key 3 works.)

Keyboard
Current key
<u>3</u>
Esc-ESC

LCD: press [←] or [→] key to select [LCD] option, and press [OK] to enter LCD testing interface.

Voice: press [←] or [→] key to select [Voice] option, and press [OK] to enter voice testing interface.

Sensor: press [←] or [→] key to select [Sensor] option, and press [OK] to enter sensor testing interface.

Flash: press[←] or [→] key to select [Flash] option, and press [OK] to enter flash testing interface.

Two steps: 1. Erase all data; 2. Check

After checking completed, the interface will show the checking result,

After each testing is finished, press [C] key to exit.

2.5 System Info

[System Info] shows the current usage status of device, such as user quantity, fingerprint quantity, records quantity and the firmware version etc.

In management mode, press [←] or [→] key and shift to [System Info] option.

Press [OK] key to enter system info interface, and check info of correct operated device.

User: Registered user number in device

FP Enroll: Registered fingerprints number. Select it and press [OK] key and you can check the same password enrollment number.

Prompt: display info will be based upon different device configuration.

Firmware version: the firmware version of program which write in EROM or EPROM (Programmable read only memory). The so-called firmware is firm program saved in integrated circuit firmly, responsible for controlling and dealing with integrated circuit.

After checking completed, click [C]to exit.

2.6 T&A status setting

In T&A status, press [←] or [→] key to shift attendance status. System default statuses are IN, Pass, OUT.

2.7 T&A

FP only mode:

In T&A status, place registered finger on sensor scanner. After a beep 'di-', system will prompt as following,

Remove your finger. If access granted, green LED indicator will be on with voice prompt 'Access granted'. And interface displays as following,

If access fails, red LED indicator will be on with voice prompt 'Access denied'. And interface displays as following,

ID+ Password mode:

In T&A status, input staff ID through number keypad, i.e. 8108.

Press [OK] key to confirm ID, and input password following prompt,

Input staff password and press [OK] key to confirm. If verification passes, green LED indicator will be on with voice prompt 'Access granted'. Else red LED indicator will be on with voice prompt 'Access denied'.

ID+FP mode

In T&A status, input staff ID, i.e. 8102

Press [OK] key to confirm and place finger on sensor scanner. After a beep 'di-', system will prompt as following,

Remove your finger. If access granted, green LED indicator will be on with voice prompt 'Access granted'. Else red LED indicator will be on with voice prompt 'Access denied'.

2.8 Shut down

In time attendance status, keep pressing [OK] key until interface shows as following,

Then device will shut down.

Notice: if external power is connected, you can press [OK] key to power on device.

Chapter 3

System Installation

This chapter mainly discusses the installation and un-installation of T&A software as well as the hardware and operation system requirement.

3 System Installation

First we should install background management software on the computer. Please refer to the following steps.

3.1 Operation Environment

Hardware requirement:

Pentium II 266 and above; Pentium III 500 and above is recommended;
128 Memory and above; Minimum 100M hardware space;
COM (USB Port);
CD-ROM (CD-ROM needed in installation);
VGA support 800*600 resolution and above;

Operation system:

Microsoft Windows 2000/XP (Recommended);
Microsoft Windows Vista;

3.2 System Installation

Please insert T&A disc into CD-ROM and the disc will automatically run the installation program. If not, please run setup.exe in the root directory of the disc. The following window will pop up:

Click [Next] to continue installation (see the picture below):

Select the target directory to install the program and the default is “C:\Att”. Click [Next] to continue installation (see the picture below):

Click [Back] and installation will return to the previous screen and re-select target directory; Click [Next] and the installation will start as the following picture shows:

The installation will be done after seconds (see the picture below):

If you want to install the driver, you should choose [Run driver installation program] option to install the driver, and click [Finish] to start install:

Click [Next] button, the interface will show as following:

Choose [I accept the terms of the license agreement] button, Click[Next >]button to install driver. After installation completed, the following window will show as below:

Click [Finish] button and exit install interface and an icon [] will be added to the desktop.

Double click it and the T&A management system will be started. In addition, [Bio-office Fingerprint Attendance System] has been added to [All Programs]. Please see the picture below:

The shortcut of [Bio-office Fingerprint Attendance System] and [Time and Attendance Management] is included in [All Programs].

3.3 Uninstall the program

Click [Uninstall Bio-office Fingerprint Attendance System] in the above picture, click [Next] and the program will be uninstalled automatically.

Please note: All the files and data will be deleted after uninstalling the program so please make sure before operation!

Chapter 4

Communication

The chapter is mainly about how to add, delete and set communication between PC and terminal.

4 Data communication

Select [Start] - [All programs] - [Bio-office Fingerprint Attendance System] - [Time and Attendance Management], the main interface will show as following (default password is empty):

If the time attendance software's login password is not empty, you should enter the password firstly.

Enter the password and click the button [OK] to login.

If you enter the wrong password 3 times, the software will automatically close.

When you enter a wrong password, a message box pops up as follows:

Click the button [OK]. And then try to enter the correct password

4.1 T&A Machine Management

4.1.1 Add Unit

Click the button [Add Unit]. Following windows pops up:

A screenshot of the 'Terminal Management' dialog box. It has a blue title bar with the text 'Terminal Management' and a close button. The dialog is divided into two main sections. The left section, titled 'Terminal Info', contains five input fields: 'No.' with the value '1', 'Unit S/N' with the value '1', 'Unit Name' with the value '1', 'Device Group' with a dropdown menu showing 'Group1', and 'T&A status' with a dropdown menu showing 'Real status'. The right section, titled 'Communication Method', has three radio buttons: 'USB' (which is selected), 'TCP/IP' (with an empty text field next to it), and 'RS485' (with a dropdown menu showing 'COM1'). At the bottom right of the dialog are 'OK' and 'Cancel' buttons.

[No.]: This number can be set as you like.

[Unit S/N]: Serial number is used to identify every time attendance terminal (this number is on back label as “Serial No”);

[Unit Name]: You can set it as you like.

[Device Group]: This group is used to manage the terminal machine.

[T&A Status]: There are three options: Actual Status, on duty and off duty. When we set it as “Actual Status” the attendance records’ status in the software are as same they are in the device. If you set it as “ON Duty”, all the records’ status which is from this machine will be “On duty”.

[USB]: Connect the terminal via USB cable;

[RS485]: The default value is COM1;

[TCP/IP]: Input the terminal’s IP address. The default IP address is 192.168.0.218.

Click the button [OK] to save the information. Can see a saffron yellow terminal

icon (). Please move the cursor to the terminal icon it displays as follows:

Machine Number: 1
Machine Name: Head office
Serial Number: 500
Communication Method: USB
Connection State: Abnormal

The connection state should be normal. So please do communication operation with machine (i.e. Synchronize time). When connection state is normal, terminal icon will

become blue ().

4.1.2 Modify Unit

Choose the terminal and then click [Modify Unit], the following window pops up:

Modify the information and then click the button [OK] to save the modification. Click the button [Cancel] to cancel the modification.

Notice: If the “No” is already exist in the software, following message box pops up:

Click the button [OK] to set the Unit information again.

4.1.3 Delete Unit

Choose the T&A unit and then click the button [Delete Unit]. Following message box pops up:

Click the button [OK] to delete or click the button [Cancel] to cancel.

4.1.4 Right Key Menu

[Select All]: Select all the terminals.

[Reverse Selection]: Select the terminals which are not selected. Cancel the terminals which are selected.

4.1.4.1 Set the IP Configuration

Click [Set the IP configuration] and open the window:

Select the check box and then modify the parameters. Click the button [OK] to save

[2009-03-18 13:26:14]1[Head office]Set the network parameters successfully

Note: After set the IP configuration successful, the terminal will restart.

4.1.4.2 Terminal Information

Display terminal information as follows:

Click the button [Retrieve] to retrieve the terminal information. Click the button [Cancel] to close the window.

4.1.5 Synchronize Time

Synchronize the Terminal's time with the computer time. Click the button [Synchronize time]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Some operation information displays in the main interface as follows:

[2009-03-18 13:49:24]Synchronizing time...

[2009-03-18 13:49:25]1[Head office]Synchronization successful!

4.1.6 Initialize Unit

The device will resume to factory settings. All data will be cleaned up. Attention should be taken for this operation!

Click the button [Initialize Unit]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Some operation information displays in the main interface as follows:

[2009-03-18 13:52:59]Initializing...
[2009-03-18 13:53:01]1[Head office]Initialization successful!

4.1.7 Terminal Parameter Settings

Click the button [Terminal Parameter]. The [Terminal parameter settings] interface pops up:

- Communication password (0-999999): This parameter is reserved and not available now.
- Sleep time (0~250minutes): How long dose the terminal turn to the sleep mode if there is no one operating the terminal.
- Volume (0~5): The volume of the prompt sound in the terminal. The default value is 3.
- Language: You can set the terminal's language as Simplified Chinese, Traditional Chinese, English, French, Spanish or Portuguese.
- Date format: There are three kinds date format: yy-mm-dd, mm/dd/yy, dd/mm/yy.
- Time format: There are two kinds time format: 24 hour and 12 hour;

- Matching precision: There are three kinds: 'Normal', 'Good', 'Exact'. The default value is 'Good'.
- Record Alarm Threshold Values: If the rest memory space for the record is less than the threshold value, the machine will alarm.
- Time period between repeated Checking (0~250minutes): The maximum value is 250 minutes. And the default value is 30s.
- Update the fingerprint template intelligently: During fingerprint sensor identification process, the sensor replaces the lowest-quality data with new, higher-quality data that it acquired in the matching process. This enables the sensor to maintain high quality data at all times, saving the user from repeated authentication attempts. Default status is limited.

Click the button [OK] to save the settings. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

The operation information in the main interface is as follows:

[2009-03-18 15:05:08]Set Advanced Parameter...

[2009-03-18 15:05:10]1[Head office]Parameter setting successfully!

Click the button [Display default setting] to see the terminal's default settings

4.1.8 Download New Record

Click the button [Download new record]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Following information shows on the main interface:

[2009-03-18 15:12:11]1[Head office]Reading attendance records...

[2009-03-18 15:12:12]1[Head office]Read the records completed,Records:4, Read successfully:4

4.1.9 Download All Record

Click the button [Download all record]. Following message records pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Following information shows on the main interface:

[2009-03-18 15:13:23]1[Head office]Reading attendance records...
[2009-03-18 15:13:24]1[Head office]Read the records completed,Records:6,
Read successfully:6

4.1.10 Clear Record

Click the button [Clear record]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Following information shows on the main interface:

[2009-03-18 15:14:15]Clearing time attendance records...
[2009-03-18 15:14:16]1[Head office]Clear time attendance records successfully

4.1.11 Backup Employee

Download the employee information and employee' fingerprint templates from the machine to the computer. You can edit the staffer information in the database Att2003.mdb. The user information is saved in the table "UserInfo" of the database. And the fingerprint templates information is saved in the folder "Template "in the installation directory.

Click the button [Backup Employee]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

The operation information displays on the main interface as follows:

```
[2009-03-18 15:15:07]Back upping employee...  
[2009-03-18 15:15:07]Backup employee: 1[Head office]  
[2009-03-18 15:15:08]1[Head office]Backup employeeinformation completed,  
Records:1, Read successfully:1  
[2009-03-18 15:15:08]1[Head office]Backuping fingerprints...  
[2009-03-18 15:15:08]1[Head office]Backup employee and fingerprints completed!
```

Notice: You can stop back upping the staffer by click the button on the right bottom corner. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

4.1.12 Resume Employee

Upload the staffer information and staffer's templates from the computer to the terminal.

Click the button [Resume Employee]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Some operation information displays as follows:

```
[2009-03-18 15:16:37]Get back employee...  
[2009-03-18 15:16:37]Get back employee: 1[Head office]  
[2009-03-18 15:16:38]1[Head office]Get back employee completed
```

Notice: 1. Please make sure that the User ID is existent in the terminal.

19 15:08:07]Get back staffers...
 [2009-03-19 15:08:07]Get back staffers:1[Head office]
 1[Head office]No such ID existed, recovery failed!

2. You can stop recovering the staffer by click the button [Stop] on the right bottom corner.

4.2 Record Supervision

Get the records from the terminal real-time.

4.2.1 Activate real-time

Click the [Activate real-time] button, the status bar shows message: “Reading attendance records...”. Now the software is beginning to supervise the terminal, and then collect the records every 5 seconds.

You can review the record information in the [Real-Time Monitoring Records Information] as follows:

When the staffer clock in or out, the [Check-in Times] or the [Check-out times] increases one. And the real time record shows as follows:

No.	Name	Date/Time	△ Status Description	Unit No.	Unit S/N	Unit name	Department
7	New User	2008-07-15 15:30:33	In	1	1	1	head office
6	New User	2008-07-15 15:30:52	In	1	1	1	head office
6	New User	2008-07-15 15:30:53	In	1	1	1	head office
6	New User	2008-07-15 15:30:55	In	1	1	1	head office
7	New User	2008-07-15 15:30:57	In	1	1	1	head office

And the following window which includes the Staffer ID, Name, Department and Position pops up:

4.2.2 Prohibit real-time

Click the button [Prohibit real-time] to stop the real-time monitoring. You can see the begin time and end time of the real-time monitoring in the [Real-Time Monitoring Records Information] as follows:

Begin Time	2010-07-23 09:45:40	Check-in Times	13
End Time	2010-07-23 09:46:50	Check-out Times	0
Employee Number	1	Other Status Times	25
Real-Time Monitoring Records Information			

4.3 Staffers Management

Staffer management interface is as following:

4.3.1 Add staffer

Click [Add staffer] button, open [Add/modify staffer info] window which includes 2 pages: Basic info and fingerprint registration as follows:

The screenshot shows the 'Add/Modify Employee Info' window with the 'Basic Info' tab selected. The form contains the following fields and options:

- No. [Empty text box]
- Card No. [Empty text box]
- Name [Empty text box]
- Sex [Empty dropdown menu]
- Dept. [A&D (selected) dropdown menu]
- User type [Normal User (selected) dropdown menu]
- Verify Mode [Card/FP/Pw (selected) dropdown menu]
- ID No. [Empty text box]
- Nation [Empty dropdown menu]
- Position [Empty dropdown menu]
- Education [Empty dropdown menu]
- Phone [Empty text box]
- Native Place [Empty text box]
- Address [Empty text box]
- Birthday [1980-01-01 (selected) date picker]
- Employ Date [2010-07-23 (selected) date picker]
- Political Feature [Empty dropdown menu]
- Speciality [Empty dropdown menu]
- Mobile [Empty text box]

At the bottom right, there are 'Save' and 'Cancel' buttons. A large empty box on the right side of the form is intended for a photo.

Input staff info in [Basic Info] option.

The screenshot shows the same 'Add/Modify Employee Info' window with the 'Basic Info' tab selected, but now with data entered into the fields:

- No. [8108]
- Card No. [36523652]
- Name [Michelle]
- Sex [Female (selected) dropdown menu]
- Dept. [Headoffice (selected) dropdown menu]
- User type [Normal User (selected) dropdown menu]
- ID No. [236523656985422]
- Nation [Chinese (selected) dropdown menu]
- Position [Empty dropdown menu]
- Education [Empty dropdown menu]
- Phone [021-36596536]
- Native Place [Shanghai]
- Address [Shanghai]
- Birthday [1980-01-01 (selected) date picker]
- Employ Date [2010-05-10 (selected) date picker]
- Political Feature [Empty dropdown menu]
- Speciality [Empty dropdown menu]
- Mobile [1365985638]

The 'Save' and 'Cancel' buttons are still at the bottom right.

Notice: The No. is exclusive as well as the first digit cannot be 0!

Add picture: There are two ways:

1st way: Click  button, choose staffer's picture stored in PC and open [Edit picture] window as following,

Click the button [view] to choose one photo.

Edit the photo by the [Cut-down] function and then click the button [Save] to save as follows:

Add/Modify Employee Info

Basic Info | Fingerprint Registration

No. 8108
 Card No. 36523652
 Name Michelle
 Sex Female
 Dept. A&D
 User type Administrator
 Verify Mode Card/FP/Pw

ID No. 370321198406021826
 Nation Chinese
 Position
 Education
 Phone 021-25632635
 Native Place Shanghai,China
 Address Shanghai,China

Birthdate 1984-06-02
 Employ Date 2006-10-25
 Political Feature
 Speciality
 Mobile 13826532563

Save Cancel

2nd way: You can install camera to take pictures and edit then save. Make sure there is camera equipment installed in your PC.

Click  button, open [Pictures shooting] window as following,

Choose camera equipment, and click the button [Take Pic] to take a photo.

Edit the photo by [Cut-down] function and then click the button [Save] to save.

Click the button  to delete the staff photo.

[Fingerprint registration]:

Use the external USB fingerprint reader: OA99+ to enroll the fingerprint.

The sentence “Connect to the fingerprint sensor reader successfully!” means that the OA99+ is connected successfully.

Place the fingerprint on the terminal's fingerprint scanner window and then click the button [Enroll] to enroll the fingerprint.

Click the button [OK] to save or click the button [Cancel] to cancel.

4.3.2 Modify staffer

Modify staffer operation is to modify the staffer information in the window [Add/Modify Staffer Info].

4.3.3 Delete staffer

Delete the staffer from the database.

Choose staffer from staff info list (you can choose some or all the staffers by using the button [Shift] or [Ctrl] on your computer's keypad). Click [Delete staffer] and the following window pop-up,

Click the button [OK] to confirm or click the button [Cancel] to cancel.

4.3.4 Transfer Department

Choose the staffers and then click the button [Transfer department]. The window [Staffer Transfer] pops up:

Select the department and then click the button [OK] to confirm or click the button [Cancel] to cancel.

4.3.5 Set privilege

We can only upload the staffers to the authorized terminal.

Choose the staffers from staff info list (you can choose some or all the staffers by using the button [Shift] or [Ctrl] on your computer's keypad). Click the button [Set privilege]. The [Set privilege] window pops up:

Choose the terminal and then click the button [OK] to save.

You can find the staffer's authorized terminal in the column [Unit] as follows:

Staffer No.	Card No.	Name	Sex	Position	△ Birthday	Employ Date	Phone	Address	1st FP	2nd FP	Unit
3		Clark							☒	☐	1
2		Vivi							☒	☐	1,2
1		Peter							☒	☐	1

Clark's fingerprint is in the unit 1.
Vivi's fingerprint is in the unit1 and unit2.
Peter's fingerprint is in the unit 1.

4.3.6 Copy Privilege

Copy the privilege from staffer A to the staffer B. And then the staffer B's privilege will be as same as the staffer A.

Choose the staffers from staff info list (you can choose some or all the staffers by using the button [Shift] or [Ctrl] on your computer's keypad). Click the button [Copy Privilege]. The [Copy Function and Privilege] window pops up:

Input the one staffer's ID. And then you can click the button  to browse the staffer's privilege in the [Set privilege]. And then click the button [OK] to confirm or click the button [Cancel] to cancel.

Click the button [OK] to confirm or click the button [Cancel] to cancel.

4.3.7 Download FP

Download the fingerprint from the terminal to the software.

Choose the staffers from staff info list (you can choose some or all the staffers by using the button [Shift] or [Ctrl] on your computer's keypad). Click the button [Download FP]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

The operation information shows on the main interface as follows:

```
[2009-03-18 16:18:44]Download fingerprint...  
[2009-03-18 16:18:44]Download fingerprint:1[Head office]  
[2009-03-18 16:18:44]1[Head office]Can not connect to the T&A machine
```

4.3.8 Upload staffer & FP

Upload the staffer information and fingerprints to the terminal.

Choose the staffers from staff info list (you can choose some or all the staffers by using the button [Shift] or [Ctrl] on your computer's keypad). Click the button [Upload Staffer & FP]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

The operation information shows on the main interface as follows:

[2009-03-19 15:10:18]Upload staffers and fingerprints...
 [2009-03-19 15:10:18]Upload staffers and fingerprints: 1[Head office]
 [2009-03-19 15:10:19]1[Head office]Upload staffer and fingerprint completed

4.3.9 Delete from Unit

Delete the staffers from the terminal via the software.

Choose the staffers from staff info list (you can choose some or all the staffers by using the button [Shift] or [Ctrl] on your computer's keypad). Click the button [Delete from Unit]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

The operation information shows on the main interface as follows:

[2009-03-19 15:11:21]Delete the staffer from the device...
 [2009-03-19 15:11:21]Delete the staffer from the device:1[Head office]
 [2009-03-19 15:11:22]1[Head office]Delete the staffer from the device completely

4.3.10 Staff Checking

Search the staffer information.

Search the staffer information by the Staff ID, Staff Name and Terminal. Click [Check staff] button and then the staffer info shows in the list as follows:

Employee No.	Card No.	Name	Sex	Position	Birthday	Employ Date	Phone	Address	1st FP	2nd FP	Unit
2	23852365	Lucy Li	Female						☒	☒	

4.3.11 Department management

Move the cursor to the department list and then click the right button of your mouse.

The menu pops up as follows:

[Add dept]: Click [Add dept]. The [Input Department Name] window pops up:

Input the department name. Click the button [OK] to confirm or click the button [Cancel] to cancel.

[Modify dept]: Choose the department which is going to be modified. Click [Modify dept]. The [Input Department Name] window pops up:

Input the department name. Click the button [OK] to confirm or click the button [Cancel] to cancel.

[Delete dept]: Choose the department which is going to be deleted. Click the right button of your mouse and then click the [Delete dept]. Following message box pops up:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

Remark:

Right button menu:

4.4 Record Management

4.4.1 Record Search

Set the [Begin Date] and [End Date] as follows:

Click the button [Search Record] to search the record.

No.	Name	Date/Time	Status	Status Description	Unit No.	Unit S/N
379	Peter	3/20/2009 10:28:10 AM	In	In	1	300
386	Jack	3/20/2009 10:28:31 AM	In	In	1	300
387	May	3/20/2009 10:28:34 AM	In	In	1	300

4.4.2 Export Record

Set the export format, export file and time format.

Export format: 3 formats optional: text file (.txt), CSV file (.csv), Excel files (.xls).

Text file (*.txt)
CSV file (*.csv)
Excel file (*.xls)

Export field: Choose the fields which are useful for you.

☒ No.
☐ Name
☒ Date/Time
☒ Unit No.
☐ Unit name
☒ Status
☐ Status Name
☐ Department
☐ Position

Time format: 4 optional formats

yyyy-mm-dd hh:mm:ss
yyyy-m-d hh:mm:ss
yy-mm-dd hh:mm:ss
yyyymmddhhmmss

Staffer No. length: Set staffer No. length, the default is 6 digits;

Space symbol: Space symbol to separate fields;

Space symbol length: Space symbol bit;

After setting completed, click [Export record] button, open [Save As] window, and choose save file directory, input file name, and click [Save] button. The system prompts as follow:

Click the button [OK] to confirm.

4.5 System Settings

Click the icon [🔧] on the top left corner, the menu pops up as follows:

4.5.1 Basic parameter settings

Click the [Basic Parameter Setting]. The [Basic Parameter Setting] pops up:

Com port Communication delay time (1-5) sec.: The default time is 3s.

Network Communication delay time (1-20) sec.: The default time is 5s.

☐ Communication failed, automatically exit current operation: If timeout is larger than 'Communication delay time', software will automatically exit.

☐ In real-time monitoring, voice prompts 'Department name': During real-time monitor, if staff is access granted, the software will voice prompt staff department and name.

☐ Clear the data after downloading: After downloading records completed, delete the record downloaded from machine automatically.

Click the button [OK] to confirm or click the button [Cancel] to cancel.

4.5.2 T&A State Setting

Click the [T&A state Setting]. The [T&A state Setting] window pops up:

Click the state which is going to be modified. Input the status description.

4.5.3 Timing Downloading Record

Click the [Timing Downloading Record]. The [Timing Downloading Record] window pops up:

Enable this function by choosing the [Run Timing Download Record]. You can set 5 time point.

Please use the button [Add] to set a time. And then click the button [Add] to add the time to the [Downloading Time]

Click the button [OK] to confirm or click the button [Cancel] to cancel.

4.5.4 Management PWD Setting

Click the [Management PW Setting]. The [Modify management password] window pops up:

Old password: default password is empty. If user has modified password, please input this password which is used to log on system. If it's wrong, system will prompt,

Click [OK] and input old password again.

New Pwd: the password user wants to set

Confirm Pwd: input new password again to confirm. If confirm Pwd is different from new one, system will prompt:

Click [OK] button to input confirm password again.

After modifying completed, click [OK] button to save new password and it prompts:

4.5.5 Database linking setting

Click the [Database linking setting]. The [Data Link Properties] window pops up:

Click [...] button beside [1. Select or enter a database name:] to choose the linking database directory.

Choose database name, click [Open] button to confirm database linking and exit to [Data link properties] interface. If database set ID and password, input ID and password in [2. Enter information to log on to the database]. After completed, click [Test connection] to test the connection correctness of the database.

Click [OK] button and it goes back to [Data link properties] interface. After setting successfully, please restart the software.

4.5.6 Exit system

Click [Exit system]. It prompts:

Click the button [OK] to confirm or click the button [Cancel] to cancel.

4.6 User interface configuration

4.6.1 Interface skin color

Shift the skin color by press the button []. The style is Windows XP system style.

4.6.2 Change the software language

Choose the language in the option [Chinese].

4.6.3 Set quick access button

Move the cursor to the icon [Synchronize time]. Click the mouse's right button. It prompts:

Click the item “Add to Quick Access Toolbar”. And then you can see the quick access button on the toolbar as follows:

Move the cursor to the quick access button. And then click the mouse's right button. It prompts:

Click the item “Remove from the Quick Access Toolbar”.

Chapter5

Background Management

The main theme of this chapter is how to collect attendance records from different terminals with management software and generate different reports. The background software can manage staff information, set rules of attendance etc.

5 Background Management

Management software can collect attendance records from different terminals, calculate according to shift setting and finally generate different reports. The background software can manage staff information, set rules of attendance etc.

5.1 Log in System

Double click the icon [] on the desktop to start the attendance background management program. The log-in interface will pop up as follows:

The default administrator's name is "Admin" and password is empty. Log in system and the following interface will be displayed:

The main interface includes three parts:

1. System menu: Include the whole function module& information;

2. Shortcut button: Shortcut button of common function module, array in working order, easy to work on;

3. Status column: Show the current time, logged-in administrator and system information.

5.2 System

Click [System] on the main menu, following springs:

5.2.1 Parameters Settings

Click [Parameters Settings] in system menu. The following window will prompt:

Pic5.1 Parameters Settings

[Basic parameters]:

Set your company name, the default is “Head office”

Input your company name that will be deemed as the head of departments list.

A working day count as how many minutes is the base for time attendance calculation which will be the transition standard to calculate the late to work/early to leave /free overtime items, minute is the good transition standard of hours and working day.

“Late for work as how many minutes” can be set when no clock-in on duty, “early to leave as how many minutes” when no clock out for off duty. Free overtime work can also be calculated on the base that how many minutes working after off duty time.

“Shift expand two days” is set under real condition.

[Stat. Rules]:

Click page [Stat. Rules] in pic5.1, following shows:

This page describes the stat. rules of items: normal, late, early, business leave, leave, absence, overtime, free overtime.

Accumulate by times: Only calculate the total times, display the accumulated times in report.

Round at total: Add up the total time and then round according to corresponding unit.

Round down: Abandon the number after the minimum unit one regardless it is. For example, if the minimum calculation unit is 1 day, if the accumulated time is 1.1 days or 1.9 days, the result of calculation is 1 day.

Round up: Add one unit regardless the number after the minimum unit is. For example, if the minimum calculation unit is 1 day, if the accumulated time is 1.1 days or 1.9 days, the result of calculation is 2 day.

Round off: If the number after the minimum unit is equal to or over 0.5, add one unit, or else, abandon it.

Notice: The setting of stat. Rules above will directly affect the statistical result.

Please make above setting according to the true status of your company to ensure the accuracy of reports.

[Leave class]:

Click page [Leave class] in pic5.1, following shows:

Add new leave class:

Click [Append], input the name of leave class and choose color and click [save] to finish.

Revise leave class:

Select the name of leave class which one need to be revised, click [Modify], input new name of leave class and color, and click [Save] to finish.

Delete leave class:

Select the name of leave class which one need to be deleted, click [Delete], and click [OK] to finish.

[Field definition]:

Click page [Field definition] in pic5.1, following shows:

This page add the corresponding value for [Nation], [Specialty], [Position], [Education] in menu [Staffer maintenance].

5.2.2 Administrators

Click [System]-[Administrators], following window shows:

Append new administrator:

Click [Append]—input the name of new administrator within input field.

Of [Administrators], select corresponding privileges below and click [Save] to finish adding of new administrator. The default password of new administrator is 888888. Please log in as the new registered administrator and click menu [System] -- [Administrator's password set] to set new password of administrator for system security.

Note:

1. Before you using the administrator mode, you need to set the privileges for every administrator with which the administrator can modify the operation items after he log in the software; there are all the items in the “Items operable” list in above picture, such as “Staffer maintenance, Shifts settings, Calculating and Report”; we can set different privileges for different administrators so as to divide and manage the task systematically.

2. After you add a new department, you must modify the privileges of the “Department operable” for the administrators (select the new department in the “Department operable” list and save), who will have the privileges to modify the new department, and then you may do other operations.

Modify administrator:

Select the name of administrator, click [Modify], input new name of administrator and corresponding rights in [Administrator] and click [Save] to finish.

Delete administrator:

Select the name of administrator who will be deleted and click [Delete] to finish deleting according to the prompt.

5.2.3 Administrator's Password Set

Click menu [System]--[Administrator's Password Set], following springs:

A small dialog box titled "Administrator modify password". It contains three text input fields labeled "Old Pwd:", "New Pwd:", and "Confirm Pwd:". At the bottom right, there are two buttons: "OK" and "Cancel".

Input the original password in [Old Pwd], enter the new password in [New Pwd], enter again in [Confirm Pwd] and click [OK] to finish.

5.2.4 Modified Record Log

Click menu [System]--[Modified Record Log], following springs:

A window titled "Attendance record modification log". It features a toolbar with "Search", "Restore", and "Close" buttons. Below the toolbar are filters for "Department" (set to "Head office"), "Staffer No." (set to "All"), and "Time Range" (From: 2003-3-1 0:00:01, To: 2009-4-9 23:59:59). A table with the following headers is displayed: Department, Staffer No., Name, Clocking Time, State, Modify type, Reasons, and Administrator. The table is currently empty. At the bottom, a "RecordCount:" label is followed by the value "0".

Select department, staffer ID and time range and click [Search] and those records which match the above condition will be displayed as follows:

Notice: Modified record log shows all the time attendance record modifications; If there's record that has been revised incorrectly before, it can be recovered by selecting this record and clicking [Restore].

Click [Close] to exit.

5.2.5 Managing Log

Click menu [System]--[Managing Log], following springs:

This log records all the operations of every administrator. Select [Administrator]

and the time range then click [Search] to see what operations have been done by this administrator within the selected time range, which makes it possible that the multi-administrators can use the software at the same time.

5.2.6 Set Database Link

This system adopts the database interface of Microsoft ADO. The acquiescence database is Access2000.The defaulted is att2003.mdb under the main setup directory. You can set up the database linking again according to the actual conditions.

When the following mistake appears, you should link database again:

Click [Database Linking] in system menu, the following springs.

Input the database name or click the  button to select the correct database file. Notice: you can click [Test connection] to test the connection correctness of the database.

5.2.7 Exit System

Click [Exit System] in System menu. The following menu springs.

Click [OK] to exit management software and return to Windows system.

5.3 HR Management

Click [HR Management] on the main menu, Following springs:

	Department Management	Ctrl+D
	Staffers Maintenance	Ctrl+G

5.3.1 Department Management

Click [Department Management] in the [HR Management] menu, springs the following window:

Add a new department: Click [Append], input the new department name and click [Save] to add a sub department for the chosen department.

Note: when you want to do some other operations to the new department, you need to set the privilege of modifying the new department for the administrator in the [Administrator set] first (choose the new department you just added in the “Department operable”).

Department modification: Choose the department, click [Modify] and input the new department name, then click [Save].

Delete the department: Choose the department, click [Delete] and then click [OK] to complete.

Notice: repetition of department name is not allowed; if there are staffers existing in the deleted department, those staffers will be automatically transferred to department of head office.

5.3.2 Staffer Maintenance

Click [Staffer Maintenance] in [HR Management] menu, the following window appears:

Staffer No.	Name	Department	Card No.	Sex	Position	Employ Date
8101	David	Headoffice				
8102	Allen	Headoffice				
8103	Dark	Headoffice				
8104	Willen	Headoffice				
8105	Holly	Headoffice				
8106	Ring	Headoffice				
8107	Golf	Headoffice				
8108	Jim	Headoffice				
8109	Ketter	Headoffice				
8110	Lily	Headoffice				
8111	Hose	Headoffice				

Staff's adding:

Choose the department that the staffs belong to, clicks [Append], and input staff's information, then click [Save] to complete.

Note: 1. The items of "Calculate attendance", "Calculate overtime", "Rest on holiday" below "Attendance Set" is correlated with report, please set it correctly. If the checkbox of "Calculate Attendance" of this staffer is not checked, there will be no statistical result for this staffer in the report. If checkbox "Calculate Overtime" is not checked, the statistical result of overtime of this staffer will be 0, unless he had [Temporary Shifts] which defines as overtime working; If the checkbox of "Rest On Holiday" is not checked, holidays will make no effect on the shifts for this staffer; if the checkbox of "Rest On Holiday" is checked, thus for those holidays, even there are shifts on those days for the staffer, those shifts will be invalid. And if there are time attendance records of this staffer, those records will be deemed as free overtime.

2. Staffer No. is exclusive as well as the first digit cannot be 0!

Staff's modification:

Choose the staff, click [Modify] and input the new information, then click [Save].

Staff's deletion:

Choose the staff; click [Delete] and then click [OK] to complete.

Please be cautious when delete the staff since all this staffer's time attendance records, shift arrangement will be deleted at the same time.

Import staffers:

Click [Import], staffer importation window springs for importing staffers.

Staff's department shifting:

Choose the staff you want to shift the department, click [Transfer] and following window will pop up:

Select the new department and click [OK] to complete.

Export Staff:

Right-click on staff list and the following window pops:

All displayed fields in staff info list can be defined through submenu of "Column". Meanwhile, the modification will take effect and be saved.

Click [Show all columns] to display all fields in the list.

Click [Export Data] and following window will prompt:

Please select your target directory of your export, file format (txt or xls) and the file name. Click [Save] to confirm the operation.

Notice: Exported Excel file can be used as backup information and can be imported again.

5.4 Attendance Management

Click [**Attendance**] in the main menu, following springs:

Holiday List		
TimeTable and Shift		Ctrl+B
Staffer Scheduling		Ctrl+P
Attendance Record		
Attendance Calculating and Report		Ctrl+R

5.4.1 Holiday List

Click [Holiday List] in [Attendance] menu. The following appears.

Add festivals or holidays

Click [Append] then input the festival or holiday name and the rules. Click [Save] when ready.

Modification of festivals or holidays

Select the festivals or holidays you want to revise, then click [Modify] and input the

new information. Click [Save] when ready.

Deletion of festivals or holidays

Select the festivals or holidays you want to delete, and then click [Delete] to perform Deletion of festivals or holidays.

5.4.2 Timetable and Shift

The relationship between shift and timetables:

Shift setup should be done in two steps: First, setup necessary timetables. Second, setup shifts. One or more timetables can be included in one shift.

Timetable is the time period between On-duty and Off-duty required in the company rule. For instance, the company rule requires the working hours be 08:00-12:00 and 13:00-17:00; so 08:00-12:00 and 13:00-17:00 are two timetables. If such a shift needs to be setup, these two timetables should be setup first. Here, we use time table “morning” to indicate “08:00-12:00” and time table “afternoon” to indicate “13:00-17:00”; so two timetables have been setup. (Please refer to the following chapter for details of how to add time tables) and then we can add a shift such as “Normal shift” in which “shift cycle” and “cycle unit” will be setup. Then we should add two timetables - “morning” and “afternoon” so that a shift setup is completed. Brief introduction is mentioned here for you to get a general picture of the relationship between timetable and shift. The details of shift setup will be found in the next two sections.

Timetable maintenance:

Click [Timetable and Shift] in [Attendance] menu. The following window appears.

Pic5.2 Timetable Maintenance

Add a new timetable

Click [Append] and enter the corresponding information:

[Timetable Name] For instance: Day Shift

[On duty Time] (08:00)

[Off duty Time] (17:00)

[Begin Clock-in Time] (07:00)

[End Clock-in Time] (13:00)

[Begin Clock-out Time] (16:00)

[End Clock-out Time] (20:00),

[Late error allowance] (5)

[Early error allowance] (5)

[Count as work day] (1)

[Count as work time XXX minutes] (480).

Tick [Must C-In] and [Must C-out],

Finally click [Save] to confirm.

(Please note: Every item should be setup in timetables with no blank left. [Begin Clock-in Time] and [End Clock-in Time] setup the valid time period for clock-in. Records out of this time range will be treated as invalid ones. For instance [Begin Clock-in Time] is 07:00 and [End Clock-in Time] is 13:00. If clock-in record is 07:01 or 12:59, they are valid records but if clock-in record is 06:59, it is invalid. Besides, [Begin Clock-in Time] and [End Clock-in Time] can be more than one day (meaning [End Clock-in Time] can be before [Begin Clock-in Time]) but it can't be longer than 24 hours.

[Late error allowance] means how many minutes after [On duty] are treated as "late", [Early error allowance] means how many minutes before [End Clock-in Time] are treated as "early"; [Count as work day] and [Count as work time XXX minutes] are used in calculating business leave, leave, absence and overtime.

Checking [Must C-In] and [Must C-out] or not will affect the result of calculation. If [Must C-In] is checked and the timetable is included of Staff A's shift, he will be either considered absence or treated according to [Not clock in count as late XXX minutes] in [Parameter Settings] If he didn't clock in or ask for leave. Otherwise, even if there is off duty record for him only, his attendance will be treated as normal.

The timetable Modification:

Select the timetable name you want to revise, and click [Modify], then input the new information, clicks [Save] when finished.

The timetable Deletion:

Select the timetable you want to delete, click [Delete], and click [OK] to make sure.

(Please note: Begin Clock-in Time and End Clock-in Time makes the valid time range for Clock in. Clock in out of this time range will be treated as invalid records. It is

the same with Clock-out time. Please setup in accordance with practical situations.)

Example——Add a timetable:

Complete process for adding four timetables:

Day shift 08:00 - 17:00 Morning shift 04:00 - 12:00

Noon shift 12:00 - 20:00 Night shift 20:00 - 04:00

(Other information can be setup according to practical situations. Please refer to Pic5.2. Please note there should be no blank left.)

Shift Maintenance

Click [Shift Maintenance] in Pic5.2 and the following window pops up:

Date	Timetable 1	Timetable 2	TimeTable 3	TimeTable 4
Sunday				
Monday	Day			
Tuesday	Day			
Wednesday	Day			
Thursday	Day			
Friday	Day			
Saturday	Day			

Add a shift:

Click [Append] and enter corresponding shift information in [Shift Name] such as: normal shift [Cycle] (1), [Cycle Unit] (week), and click [Add], select the timetables and time range required in this shift in the springing window (see the Pic5.3 below) For instance, select the timetable – Day shift and select from Monday to Friday and then click [OK], back to this window and click [Save] to complete. (Please refer to the example for details.)

Pic5.3 Add a timetable

Delete the timetable: select the timetable you want to delete and click [Delete].

Clear the timetable: clear all the timetables of the shift.

Arrange the shift automatically: when a staffer has several shifts during one period, he need to finish all the shifts if it is not arranged the shifts automatically otherwise he will be regarded as absence; if you select the [Arrange the shift automatically], just finishing one shift of the period is reared as normal attendance.

Modify a shift:

Select the shift to be modified and click [Modify], and enter new information in [Shift Name] etc., click [Save] to complete.

Delete a shift:

Select the shift to be deleted and click [Delete].

Example——Three shifts:

Add “Three shifts” Shift (Please note: It is assumed that the shift goes around every week, cycle every three weeks and staff is on holiday every Saturday and Sunday.)

Step 1:

Click [Append], enter “Three shifts” in [Shift Name], set [Cycle] to “3” and [Cycle Unit] to “week”. Please see the picture below:

Step2

Add corresponding working hour timetable in accordance with “Cycle”: first week (morning shift, from Monday to Friday)

Click [Add] and the following window pops up:

Select the timetable “Morning shift” to be added and select the time range to apply to this timetable “from Monday to Friday of the first week” and click [OK] to complete the setting of the first week.

The second week (afternoon shift, from Monday to Friday)

Click [Add], make corresponding operation in the springing window (see the result below):

Click [OK] to complete the working hour setting for the second week.

The third week (night shift, from Monday to Friday)

Click [Add], make corresponding operation in the springing window (see the result below):

Click [ok] to complete the working hour setting for the third week.

After the completion of above steps, please don't forget to click [Save] and the setup of "three shifts" will be done (see the picture below):

5.4.3 Staffer Scheduling

Click [Staffer Scheduling] in [attendance] menu. The following window appears:

Pic5.4 Staff scheduling

Choose the department or several personnel that need to arrange shifts, click [Arrange], the following window appears:

Pic5.5 Add a new shift

Add a new shift

Select the corresponding shifts, for instance: The commencement date and deadline of this shift of “normal class”, click [Add] button and then click [OK] in Pic5.5 to finish the adding of new shifts.

Please note:

If the cycle unit of scheduling is “week” and the amount of cycle is more than 2, the starting date should setup as “Sunday”.

If the cycle unit of scheduling is “month” and the amount of cycle is more than 2, the starting date should setup as “1st day of a month”.

Deletion of the shifts

Select the shifts in the shifts form which you want to delete, click Delete button, and click ok on the pop up dialog box to finish the deletion.

Arrange a Temporary Shift

When one or many staff's working time needs to be changed temporarily, you can arrange a temporary shift. Click [Add Temporary] the following window appears:

Click [OK] and the temporary scheduling can be operated. Then click [Add] and the following window will pop up:

Click [OK] and the timetables will be saved. Click [Save] and the temporary scheduling will be saved.

[Delete]: Delete the selected timetable;

[Clear]: Delete all the timetables in the current time range;

[Cancel]: Delete the existing temporary scheduling in the selected time range;

5.4.4 Attendance Records

Click [Attendance Records] in [Attendance] menu, the following appears:

Inquiry of attendance record

Select the department, staff, the beginning and ending time that need to inquire about, then click search, you can get the corresponding attendance record.

Search Staffer's Attendance Record

Search Report Export Modify Log

Attendance records exporting

If need to lead out the attendance record, only need to click export, you can lead out the data inquired. (File format: txt, xls)

Click [Modify Log] and the log-modifying window will be called for reviewing the modification log of time and attendance records.

5.4.5 Attendance Calculating and Report

Inquiry of report form:

Click [Attendance Calculating and Report] in [Attendance] menu, the following window appears:

Department	Name	Staffer No.	Date	Timetable	On Duty	Off Duty	Clock In	Clock Out
------------	------	-------------	------	-----------	---------	----------	----------	-----------

Pic5.6 Attendance Calculating and Report

Select the beginning, the ending date and the department and staff that need to be calculated and then click [Calculate].

There are four Tabs of information after search and calculation which can be viewed respectively:

[Attendance Exceptions]: Display the dealt result of the original attendance records;

[Shift Exceptions]: Display Staff's attendance result in the scheduled time period;

[Other Exceptions]: Display Staff's leave, out and overtime etc.;

[Calculated Items]: Display all Staff's calculated items such as "normal", "actual",

Please note: When dealing with “Out” calculation, there should be “Out back” and “Out” and “Out back” in one shift can be calculated.

Exceptions of attendance records dealt with:

Print Report:

Toolbar of report preview is as the following picture:

100% Adjust the ratio of preview content;

Open the existing report file;

Find the report file (*.frp) to be opened, select it and click [Open] to see the report.

Save report to file;

Select the directory to save the report to, enter the file name and click[Save]to complete the backup of the report for future check or copying to another computer for printing; extension file name is “*.frp”.

Print Report;

Close Preview

Data Export:

In picture 5.6, click [Export] and the displayed data of grid in the current window will

be exported to a file (*.txt or *.xls). It has the same function as [Export Data] when right clicking in each grid.

Exceptions dealt with:

In pic5.6, click [Exception] and the following menu will pop up:

A	ppend Record
L	ate/Early Collectively
B	usiness Leave/Leave
M	odified Record Log

Click options one by one in the menu and the following modules will pop up respectively: [Append record], [Late/Early Collectively], [Business Leave/leave] and [Modified Record Log]. If the calculation result is incorrect for some staff, first, please check whether there is leave or forgetting Clock in or Clock out for this staff. If there is, please deal with the records through above menu. Please refer to the next chapter for more details.

5.5 Deal with Exceptions

Click [Exception] on the main menu, following springs:

A	way On Business/Leave	C	trl+L
A	ppend Record	C	trl+W
A	ppend Record Collectively		
D	ealing With Collectively Late/Early		

5.5.1 Away on Business/ Leave

When the staff can't punch in/out because of going out on business or asking for leave, in order to guarantee the exactness of the final statistics, we should make these settings through this function. Click [Away on Business/ Leave] in [Exception] menu, the following interface springs:

Deal with staff away on business / leave:

Click [Append], then select the proper department, staffer ID, beginning time, ending time, leave type, and click save when ready.

Modification of staff away on business or leave:

Select the appointed staffer whom you want to make this modification to, and click [Modify]. Then you can modify the relative information; click [Save] when ready.

Deletion of staff away on business or leave

Select the appointed staff and the relative information you want to make this deletion, and click [Delete].

5.5.2 Append Record

If a staffer didn't punch in because of special reason, you can use this function to append the forgetting attendance record. Click [Append Record] in [Exception] menu, the following window Springs:

Select the relative items and click [Append] when ready.

5.5.3 Append Record Collectively

When part or all of the staffers in a department did not punch in/out because of

some reasons, please you can use this function to add punching in/out collectively, click [Exception]--[Append Record Collectively], following springs:

Select the department, thus the staffers in the department will be listed in the staffer list, select the staffers whom you want to add records on to, then select punching in or out and the time, click[Ok]to finish.

5.5.4 Dealing with Collectively Late / Leaving

When collectively coming late / leaving early takes place for some allowable reasons, you can use this function. Click [Dealing with Collectively Late / Leaving] in [Exception] menu. The following springs:

Steps as follows;

1. Click “Dealing with Collectively Late/Early”;
2. Select time range for “ignore clock in record”;
3. Select the “modified clock in time”
4. Search staff through department or shift;

5. Select staff;
 6. Click [OK] to confirm.
- ### 5.6 Data Maintenance

Click [Data Maintenance] on the main menu, following springs:

5.6.1 Import Staffer List

Click [Import Staffer List] in [Data Maintenance] menu. Pop up the following window:

Click  to select the personnel list file for importing.

Select the right file which can be in *.txt or MS Excel (*.xls) formats, then click [open] to get back to above window, click [OK] to start!

The definition of (*.txt) data format as follows:

This format of file only can import the staffer info of “ID, Name, and department”;

The format of data must follow: Staffer ID + Tab + Name + Tab + Department;

The information each staffer takes one line, no blank line between one another.

The definition of MS Excel (*.xls) data format as follows:

This format of file can import the staffer info includes: "Staffer No., Name, Department, position, Employ Date, Telephone, Address, Sex, Language, Comment"; put those items on the head line and input the items by order, the order can not be changed.

5.6.2 Import Attendance Record

Click [Import Attendance Record] in [Data Maintenance] menu, Springs the following window:

Click  to select the attendance record file for importing, and click [OK] to start.

5.6.3 Clear Obsolete Data

Click [Clear Obsolete Data] in [Data Maintenance] menu, springs the following window:

After your system is used for a long time, you will get a large number of obsolete data in the database. It ties up the hard disk space and influences your system operation speed. At this moment you can use this function to clear these useless data.

Select the ending date for your data clearing. And click [clear] to complete this operation, after the clearance, the system will prompt asking you to compress the database as following shows; select [ok] to finish. (Note: you can only clear the data of one month ago)

5.6.4 Compress Database

Click [Compress Database] in [Data Maintenance] menu to compress and repair

the database

5.6.5 Backup Database

For ensuring the safety of data and recoverability, we advise you to back up the database regularly. Click [Backup Database] in [Data Maintenance] menu, then select the route to backup the database. Click [Save] when ready.

Back up the database manually: Copy the Att2003.mdb from the installation directory to the route you want to backup the database, so if the system collapses, you just copy Att2003.mdb to installation directory over again after re-installation.

5.6.6 Initialize System

Click [Initialize System] in [Data Maintenance] to initialize the system. (Note: After the system is initialized, all information will be lost; the system will get back to the state when just installed. Please make sure that you want to initialize the system.)

5.7 External Program Management

Click [External] on the main menu, following springs:

5.7.1 External Program Management

We can append external program into time attendance program for convenient operation. Click [External]-[External Program Management], following springs:

Firstly, we can click [Append] to add a new menu. For example, we need “calculator” when we are operating, input “Calculator ” into the input field of [Program name], and then input “C:\WINDOWS\system32\cmd.exe” into the input field of Executable file or browse  to find the calculator program, click [Save] to finish at last. We will see [Calculator] when you open [External program management] over again:

External Program Management
Connect To Time and Attendance Machine Calculator

5.7.2 Connect to Time Attendance Machine

Click [External]-[Connect to Time Attendance Machine] springs the communication interface between the software and the machine which can control the current machine connected with the computer, it can collect the records from the machine, upload and download staffer info & clear the old data & modify the time on the machine. Find detail on clause 《Time and attendance management & communication》 .

Chapter6 FAQ

Frequently asked questions and answers

6 FQA

6.1 Fingerprint has enrolled but often gets failure in identification.

Reason	Solution
1. The fingerprint was not captured properly	Enroll the finger again. Please refer to illustration of pressing finger.
2. Direct sun light or too bright light	Avoid direct sun light or other bright light
3. Too dry finger	Touch the forehead to increase oily level of the finger.
4. Too wet finger with oil or cosmetics	Clean fingers with towel
5. Low fingerprint quality with callus or peeling	Enroll other fingers with better quality
6. Wrong way in placing fingers when punching in/out	Please refer to illustration of pressing finger.
7. Latent fingerprint on the surface of sensor	Clean sensor surface (adhesive tapes recommended)
8. Not enough finger pressure	Place the finger evenly on the sensor with moderate pressure
9. Influence by fingerprint image change	Enroll fingerprint again. Please refer to illustration of pressing finger.
10. Fingerprint not enrolled yet	Place enrolled finger.

6.2 The machine cannot connect with PC.

Reason	Solution
1. Communication method not set correctly	Select the correct communication method
2. Cable not plugged firmly or cable hardware problem	Plug the cable firmly or change another cable
3. Not able to connect COM (wrong COM No)	Please enter the right COM No
4. Not able to connect TCP/IP (wrong setting)	Refer to the manual for connecting Time Attendance terminal

6.3 No records found though staff have clocked in/out.

Reason	Solution
1. Unit power break for a long time (time turn to zero as default)	Synchronize the time

2. Minority staff fingerprint false accepted	1. Add records manually 2. Adjust fingerprint matching precision 3. Change another finger and enroll again.
--	---

6.4 Clock's time works fine, but FP scanner is off, staffer cannot attendance

Reason	Solution
1. Unit in dormancy status	Press any key to activate.
2. Fingerprint scanner abnormal	Restart the machine or change the fingerprint module

6.5 We do not use the ID + fingerprint mode to verify

Reason	Solution
1. Wrong ID entered	Enter the right ID
2. This user has no right to use 1:1 identification method	Set 1:1 identification method for this user.

6.6 The unit beeps automatically when no one punches in/out.

Reason	Solution
1. Direct sun light or too bright light	Avoid direct sun light or other bright light
2. Latent fingerprint on the surface of sensor	Clean sensor surface (Adhesive tapes recommended)

Please note: Should you have any other problems, please kindly email us the log files in zip or rar (The log files are in Log directory in the installation directory of the software)!

Chapter7 Appendix

The main theme of this chapter is the additional information of this T&A including access control cable connection and way of pressing finger.

7 Appendix

7.1 Interface Illustration

7.2 Illustration for pressing fingerprint

Correct method:

Place the center of the finger on the center of scanner window)

Wrong method:

Too small valid area

left-of-center

right-of-center

Defluxion

Too down

1. It is better for each user to register two finger prints in case of one finger can not work.

2. Place finger flatly and the center of the finger is on the center of scanner window and press a little hard on scanner so it can scan as large finger area as possible to extract enough minutia.

3. Keep the angle and direction of finger the same each time placing on scanner.

4. If your finger has sweat or water, please make it dry first and then register.

5. If your finger is too dry, make it a little wet or touch the forehead to increase oily of the finger, press a little hard on scanner. (the dry finger can cause the finger image not clear.

6. Avoiding the callus, peeling or injury of the finger to ensure the register and identification successful.

7. You'd better register the thumb first, and then index finger or middle finger to increase the precision.
