Specification

Camera	Dual Sensor Camera	FRR	0.001%
LCD	2.4 TFT Color Screen, 65,000 Bright Color	Communication interface	USB Device, TCP/IP, Wiegand In&Out
Keypad	4*4Touch Keypad	FAR	0.0001%
Facial Capacity	300 users	Card Reader Module	Option ID Card function
Log Capacity	300,000	Access control	Built-In Relay Contact Door Lock
Identification Mode	FC , ID, Card, FC+Card, FC+ID, ID+Card	Photo And Name Display	Yes
Identification Time	<1 Sec	Identification Distance	30---80CM
		Identification Height	140---195CM

G8 Application Diagram

Feature

- Latest Exclusive face recognition V4.0 algorithm with high speed and steady
- Superb adaption for race, complexion ,facial expression ,beard and hair style difference
- 7*24 continuous working day and night with human-harmless non-visible auxiliary light technologies
- Stable performance, low energy consumption for different time
- Powerful attendance management software built in
- Multiple recognition modes supported: Face , Face+ID/IC , Face+PW
- Self-studying intelligence as people face changes
- Huge storage SD Card capacity, USB backup support Option ID or IC carder
- No touch identification, Healthy, pro-environment and available for all people
- Fast facial identification in less than 1 second
- Support multiple display and software language
- User photo ,name display on LCD and voice prompt
- Touch keypad available to operation
- USB Host for User data upload or download via USB flash driver
- Wiegand output makes system compatible with different access control panel
